

MUNICIPAL SCALE

GEN-L+

Industrial Plus

Municipal-scale atmospheric water generation for large tribal communities, government facilities, and industrial operations. The flagship solution for water sovereignty.

Key Benefits

- ✓ Generates up to 2,642 gallons of water per day from the air
- ✓ Municipal-scale water production capacity
- ✓ Dual-container modular design for scalability & transportability
- ✓ Supports communities of 500+ people
- ✓ Integrated reverse osmosis (RO) purification system
- ✓ Remote monitoring and management capabilities
- ✓ Designed for long-term, continuous operation

Ideal For

- Municipal water supply systems
- Large tribal communities serving 500+ residents
- Government and public service facilities
- Industrial and manufacturing campuses
- Large healthcare and hospital networks
- Military and emergency preparedness installations
- Community resilience & water sovereignty initiatives
- Remote regions requiring sustainable large-scale water production

Technical Specifications

Daily Water Production	2,642 gallons per day
Storage Tank Capacity	528 gallons
Power Consumption	5,000 watts (85 kW)
Energy Efficiency	Approximately 0.87 kWh per gallon
Operating Humidity Range	20–90% Relative Humidity
Operating Temperature Range	50°F–113°F
Dimensions (W × D × H)	Two Container Units Each: 236.2" × 94.5" × 114.2"
Weight	26,455 lbs
Noise Level	Less than 72 dB
Filtration System	Multi-stage filtration, UV purification, mineralization, and Reverse Osmosis (RO)
Water Temperature	Ambient
Warranty	3-Year Standard Warranty
